

Offering List of Chemistry Electives in Spring Term 2026-27

(Class Period from 1st February to 8th May 2027)

CHEM 3010 - Great Ideas in Chemistry

CHEM 3030 - Introduction to AI for Chemistry

CHEM 4130 – Medicinal Chemistry

CHEM 4230 – Materials Characterization Method

CHEM 4240 – Intermediate Inorganic Chemistry

CHEM 4310 – Environmental Chemistry

CHEM 4330 – Separation Science

CHEM 4410 – Physical Chemistry in Biological Applications

CHEM 4420 – Statistical Machine Learning Methods for Chemical Data Analysis

CHEM 4620 – Organometallic Chemistry

CHEM 4680 – Undergraduate Research

CHEM 4692 – Capstone Research II

***** Subject to alterations and to be finalized in mid-January 2027 *****
